PROFESSIONAL SUMMARY

Python Full Stack Developer (Fresher) with hands-on training in **building end-to-end web applications using Django and React**. Practical experience in developing **REST APIs**, implementing **authentication** workflows, and working with **MySQL databases**. Strong understanding of **MVC architecture, CRUD operations**, and full stack development lifecycle. Seeking an entry-level full stack role to apply skills in real-world applications and grow as a **developer**.

TECHNICAL SKILLS

- **Frontend**: HTML5, CSS3, JavaScript (ES6+), React.js, Redux tool kit, Bootstrap 5
- **Backend:** Python, Django, Django REST Framework
- **Database:** MySQL
- **Tools:** Git, GitHub, VS Code, PyCharm
- **Concepts:** OOP, REST APIs, MVC, CRUD, Authentication, SDLC

PROJECTS

Advanced Multi-Vendor E-Commerce Platform

Tech Stack: Django, Python, MySQL, JavaScript, AJAX, Cloudinary

- **Developed** a multi-vendor e-commerce platform supporting **multiple sellers** and customers within a unified **marketplace**
- Implemented **role-based access control** for Admin, Seller, and Customer modules
- Designed **passwordless authentication using Email OTP verification** and integrated **OAuth login via Google**
- Built a **dynamic multi-parameter product filtering system** (brand, price, color, discount) using Django ORM with AJAX-based partial updates
- Designed **product catalog, cart, checkout**, and order lifecycle workflows
- Implemented URL-based state management for filtering and **sorting with shareable query parameters**
- **Designed category-based mega menu** with context-aware filtering and Displayed real-time product count based on applied filters
- Integrated **Cloudinary for scalable cloud-based image storage** and media optimization
- **Deployed** application with **external database configuration for improved scalability**

Cricket Scorer Web Application

Tech Stack: React.js, JavaScript, CSS, HTML, Bootstrap

- **Developed a real-time cricket scoring application** using React Hooks
- Implemented **ball-by-ball scoring logic** with dynamic state management
- Built a responsive, component-based UI optimized for **fast score entry**
- Displayed match summaries including **runs, overs, wickets, and extra, strike rate**

EDUCATION

Bachelor of Science (Information Technology)
Bharathiar University - 2025
Percentage : 65%

EXTERNSHIP

Full Stack Python Development | FITA Academy

- Completed an intensive Full Stack Python training program focused on real-world web development
- Gained hands-on experience across SDLC phases: design, development, testing, and deployment
- Developed backend modules using Python and Django following MVC architecture
- Built and tested REST APIs for CRUD operations and authentication workflows
- Worked with MySQL databases and optimized queries using Django ORM
- Applied best practices to improve code quality, performance, and maintainability

SOFT SKILLS

Problem Solving | Quick Learner | Team Collaboration
